## SENATOR VANCE'S READY WIT

Records Show That Very Rarely Did Carolina Statesman Fail to Rise to the Occasion.

The late Senator Vance used to say that his liveliest campaign for the governorship of North Carolina was that in which Judge Settle ran against him. They stumped the state in joint debate. All the white Democrats turned out to hear Vance, and all the colored Republicans to hear Settle. On one occasion, Vance was informed that some young ladies desired to testify their devotion to the Democratic party by kissing the Democratic candidate for governor. Nothing loth, Vance descended from the platform and kissed a dozen or so of the young beauties, and then paused long enough to turn around toward his competitor and shout: "Settle, I'm kissing my girls; now kiss yours!" When he married the second time, he said to his wife on their wedding-day: "My dear, I'm a stubborn fellow, and you may anticipate trouble. Now, in the beginning, while I am submissive, I want to give you one piece of advice. If you follow it, we'll get on mighty well. It is this: Make me do just as I darned please." A newspaper man, who was about starting for a rather out-of-the-way portion of Vance's own state, was asking him one day what kind of accommodation he was likely to find. "They'll give you some of their fried hog and eggs," the senator replied. "That's better than nothing," said the newspaper man. "I don't know—I don't know," the senator answered, in a dubious tone; "I've tried both."

Smoking to Be Stopped.  
Statistics gathered through investigation by the authorities of New York city show that 3,245 fires in 1910 and 3,332 in 1911 were caused by the carelessness of smokers, mostly in places of industry. Fire Commissioner Johnson, who has been studying the laws relating to the prevention of fires, as well as to their extinguishment, has discovered a statute which forbids acts which endanger the health or safety of any considerable number of persons, and he is going to attempt to make it applicable to smoking in factories. He has therefore ordered 40,000 notices—printed in English, Yiddish and Italian—prohibiting smoking in factory buildings. These will be universally distributed and followed by vigilant and constant inspection to prevent the violation of his order.

Friday Dickens' Lucky Day.

Charles Dickens was not one of those who are superstitious concerning Friday. It was on Friday that many of the good things came to him, and it was on that day that he entered upon, paid the price and took possession of Gads Hill, the one thing he cherished more than all of his other possessions. It was Gads Hill that he had gazed upon when a wee bit of a boy, with a hope then giving little signs of fruition, that he might live to own it some day; and it was Gads Hill whose walls he covered with mirrors in almost Oriental magnificence. —Boston Record.
